New features

❖ Banner Ads

- You can add/edit/delete your banner ads which show on the top of your website at random.

❖ Search Engine Friendly URL

- A site's URL structure should be as simple as possible. Consider organizing your content so that URLs are constructed logically and in a manner that is most intelligible to humans (when possible, readable words rather than long ID numbers). For example, if you're searching for information about a category, a URL like <http://www.ecardmax.com/ecardmax2020/category/2/Birthday> will help you decide whether to click that link.
- You should also be concerned with user friendliness. URLs with long query strings are not only unfriendly to search engines, but also to users. A user will have a far easier time remembering a URL with real words in it rather than a URL with cryptic numeric data & variable names. Search engine friendly URLs also easily allow you to hide the type of server side programming you're using by removing the extension (such as .php) from your URLs. This means you will be able to change your backend software at a later date without changing your URLs, and it may even provide a security bonus.

❖ Send video card

- eCardMax enables you place a video of yourself inside a fun card design that you can send to all your friends and family... and now in the case of Twitter, all your followers too.
- There's nothing to install or download, simply select one of YouTube/Google Videos and then get video embed code of them. You can make your ecard video to send your friends, family...
- Whether it's a special occasion, holiday greeting, or you just want to personally say "Hello"... Everyone loves receiving an eCardMax video card!

❖ Upload your address book

- The Address Book is a collection of address books or address lists. You can use the Address Book to look up and select names, e-mail addresses, and distribution lists when you address messages.

❖ View card sent statistics

- This means that Administrator can track statistics associated with website e-cards using the same web analytics technologies used for websites. Monitoring these statistics, the Administrator can see the effectiveness of their e-cards – especially if they are using the e-card for more than just sending warm seasonal wishes to their Clients.
- The statistics available with e-cards provide Clients with invaluable feedback regarding the effectiveness of their message and e-card.

❖ Print e-cards

- You can use this feature to print your lovely cards to your friends, family on paper with a printer.

❖ Multiple categories for each e-card

- You can set multiple categories for an ecard; this is useful when you want to use an ecard for the categories.

❖ Multiple languages

- Administrating system can use multiple languages. You can add your file language to translate website default language (English) to your language.

❖ Invitation resend

- You can reuse your invitation to other clients that you want.

eCardMax Installation

System Requirement

eCardMax will require the following for a successful installation:

PHP version 5.x or higher

MySQL 4.x or higher (5.x is recommended)

It can be run on any platform: UNIX, Linux, FreeBSD, and Windows.

PHP SAFE_MODE = OFF, this option is required to allow admin and or user to upload files via admin.

GD Library Extension for PHP

Step by Step Installation Instructions for eCardMAX

If you have basic knowledge of using FTP and are sure your hosting service or server will run eCardMAX 10.0 you can use these steps to quickly get started. Otherwise click here to learn the basic of WS-FTP program

1. Decompress the eCardMAX 10.0 archive to a local directory on your system.
2. Upload all the files contained in this archive (retaining the directory structure) to a web accessible directory on your server or hosting account.
3. Change the permissions on config.php + config2.php to be writeable by all (777 within your FTP Client). For more information about how to chmod 777 files and folders please come here
4. Using your web browser visit the location you placed eCardMAX 10.0 with the addition of install.php, e.g. <http://www.mydomain.com/greetings/install.php>
5. Follow the instruction on the welcome screen to chmod 777 other folders + files.
6. Click the link Go to next step to fill out all the requested information and hit Submit.
7. If you enter correct your MySQL account, eCardMAX 10.0 should now be available.

When you run script <http://www.mydomain.com/install.php> you will see this:

eCardMAX 2006

Welcome to eCardMAX 2006. Before you go to next step, please use FTP to chmod 777 list of files and folders below.

[Click here](#) to know how to use FTP to chmod 777 files and folder.

- chmod 777 folder admin/**sql_backup**
- chmod 777 folder admin/**temp**
- chmod 777 folder resource/**music**
- chmod 777 folder resource/**picture**
- chmod 777 folder resource/picture/**user_picture**
- chmod 777 folder resource/richedit/**upload**
- chmod 777 folder resource/**skin**
- chmod 777 folder resource/**stamp**

- chmod 777 file resource/games/ephotohunt/**count.txt + hiscore.txt + IP.log**
- chmod 777 file **config.php**
- chmod 777 file **config2.php**

[Click here](#) to go next step

Follow the instruction on the screen to chmod 777 the list of files and folders, then click the link [Click here to go next step](#) - you will see the form below

eCardMAX 2006

Your site information	
>>Admin User Name ID	
<input type="text" value="demo"/>	← Enter your Admin User name ID
>>Admin Password	
<input type="text" value="demo"/>	← Enter your Admin Password
>>eCard URL	← Program will auto detect eCard URL
<input type="text" value="http://www.ecardmax.com/standard_2006"/>	
>>eCard Root Path (eCardMAX will auto detect, if you see the text box field below is blank, then you have to fill out eCard Root Path) - Click here to find out eCard Root Path	
<input type="text" value="/home/xxxx/public_html/standard_2006"/>	
>>Database Server Host Name	← Program will auto detect eCard Root Path If you see this text box is blank you need to find out your eCard Root Path and fill it out.
<input type="text" value="localhost"/>	
>>Database Name	
<input type="text"/>	
>>Database User Name	→ Fill out your MySQL account
<input type="text"/>	
>>Database Password	
<input type="text"/>	
<input type="button" value="Submit"/>	

If eCardMAX does not auto detect your eCard Root Path, then visit the link "click here to find out eCard Root Path" - a long page of configuration info will appear. To find out eCard Root Path, scroll down to find this:

Scroll down and find something like this:

Unix server: **/home/xxx/public_html/greetings/install.php**

Then eCard Root Path will be: **/home/xxx/public_html/greetings** (remove /install.php)

Window server: C:\wwwroot\greetings\install.php

Then eCard Root Path will be **C:/wwwroot/greetings**(You have to replace \ to / and remove /install.php)

System	Linux semidedicatedseason.websitewelcome.com 2.6.9-22.0.1.EL #1 Tue Oct 18 18:29:40 EDT 2005 i686
Build Date	Jan 16 2006 16:04:42
Configure	./configure --with-curl --with-gd --with-gettext --with-gmp --with-ldap --with-mcrypt --with-mysql --with-pdo-mysql --with-pdo-sqlite --with-pgsql --with-readline --with-sockets --with-sqlite --with-ssh2 --with-tidy --with-xmlrpc --with-zlib

_SERVER["REQUEST_URI"]	/standard_2006/install.php?step=phpinfo
_SERVER["SCRIPT_NAME"]	/standard_2006/install.php
_SERVER["PATH_TRANSLATED"]	/home/xxxxxxx/public_html/standard_2006/install.php
_SERVER["PHP_SELF"]	/standard_2006/install.php

eCard Root Path will be : **/home/xxxxxxx/public_html/standard_2006**

Fill out your MySQL account then click Submit button.

If your hosting company supports site Admin CPanel, click here to see instruction how to create new MySQL account

Copy/Convert MySQL table from eCardMAX 2008 to eCardMAX 10

If you want to upgrade from eCardMAX 2008 to eCardMAX 10, after you install eCardMAX 10 you will need to run script upgrade.php, this program will copy/convert eCardMAX 2008's tables to version 10.

This script comes with eCardMAX 10 zip file.

Post Installation Tasks

Once you have successfully installed eCardMAX 2008 you **MUST** ensure you remove the entire sql/ directories and /install.php + install_welcome.html + install_step1.html + convert.php + convert_form.html. Leaving these in place is a very serious potential security issue which may lead to deletion or alteration of files, etc. Please note that until these directories are remove eCardMAX 2008 will not operate and a warning message will be displayed.

For maximum security we recommend you should use .htaccess to protect directory greetings/admin

Setup Cron Job for Email Reminder Service

What is cron job (cron tab)?

Cron job is a UNIX command for scheduling jobs to be executed sometime in the future. A cron is normally used to schedule a job that is executed periodically - for example, to send out an email notice every month, year. It is also a daemon process, meaning that it runs continuously, waiting for specific events to occur.

If you are running Windows server, you will need to set a "Scheduled Task" to run file greetings/cronjob.php every day at 12:01am (or 2:00am - whenever you like)

Please note: You should rename file cronjob.php to xxzzyyuu.php (the filename likes a password) so that user can't run this file on their browser.

If your server supports cPanel, then the instruction how to set up cron job command below is for you

- Login to your cPanel by using this URL: <http://mydomain.com/cpanel>

- Click on icon Cron jobs, see image below

- Next screen - click Advanced (Unix Style) button

- Next screen - Input data below then click button Commit Changes

Minute : 2
Hour: 0
Day: *
Month: *
Weekday: *

Command:

```
cd '/home/path/to/greeting_folder/greetings/' ; php -q cronjob.php -p processqueue > /dev/null ;
```

You can copy the command code below

Top of Form

```
cd '/home/path/to/greeting_folder/greetings/' ; php -q cronjob.php -p processqueue > /dev/null ;
```

Bottom of Form

Replace /home/path/to/greeting_folder/greetings/ to your eCard Root path.

If you don't know what it is, you can look inside the script config.php, code

```
$ecard_root = "/xxx/xxx/xx/greetings";
```

Minute: 2 - Hour: 0 - Day: * - Month: * - Weekday: * means: your server will auto run the script <http://YOU.COM/greetings/cronjob.php> every day at 12:02 am (after midnight 2 minutes)

If you want to run the script cronjob.php every day at 3:30am then input like this:

```
Minute: 30 - Hour: 3 - Day: * - Month: * - Weekday: *
```

Setup .htaccess & .htpasswd to protect your admin directory (for cPanel user only)

If your hosting company supports site Admin cPanel, then follow step by step below to setup password to protect your admin directory

- Login to your cPanel by using this URL: <http://mydomain.com/cpanel>

- Click on icon Password Protect Directories, see image below

- Next screen you will see the list directory, browse to folder greetings/admin (Open a folder by clicking on its icon. Select the folder you wish to protect by clicking on its name.)

 /home/ xxxxxxxx /public_html/standard_2006/admin

Directory requires a password to access via the web (you must check this to activate password protection).

Protected Resource Name (will display in browser's password mask):

Active Users

User Name:

Password:

Check the check box then click Save button - next screen click Go back link to go back to previous page to set up user name and password - see image below

 /home/ **XXXXXXXX** /public_html/standard_2006/admin

 Directory requires a password to access via the web (you must check this to activate password protection).

Protected Resource Name (will display in browser's password mask):

Active Users

admin

User Name: <input type="text"/>	<input type="button" value="Add/modify authorized user"/>
Password: <input type="text"/>	<input type="button" value="Change Password"/>

Enter your user name and password then click Add/modify authorized user button

- Done

Invitation Installation

This document will walk you through the basics on installing the add-on Invitation for eCardMAX 10 software.

Version: 10.0

1. Requirements

- 1) You are running eCardMAX 10

2. Quick Install

1. Decompress the Invitation 10.0 archive to a local directory on your system.
2. Upload all the files contained in this archive (retaining the directory structure) to eCardMAX 10 directory on your server or hosting account.
3. Using your web browser visit the location you placed eCardMAX 10 with the addition of install.php, e.g. <http://www.mydomain.com/greetings/install.php>

3. Important

Once you have successfully installed eCardMAX 10.0 you **MUST** ensure you remove /install.php. Leaving it in place is a very serious potential security issue which may lead to deletion or alteration of files, etc.

Invitation Card Settings

Administration => System Configuration => Invitation Card Settings

1. [Maximum Font file member can upload](#)
2. [Invitation Card expired after](#)

The screenshot shows a web interface for 'System Configuration'. At the top left is a gear icon. Below it are several tabs: 'General', 'Tell Friend & Birthday Alert', 'eCard Settings', 'Invitation Card Settings' (which is highlighted in blue), 'Styles', 'Watermark Settings', 'Member Album', and 'Gold Version Settings'. Below the tabs are two configuration rows. The first row is 'Maximum Font file member can upload. Set 0 for unlimited' with a text input field containing '15'. The second row is 'Invitation Card expired after' with a text input field containing '60' and the word 'days' to its right. At the bottom of the interface, there is a horizontal line and the text 'Copyright (C) 10.0 www.eCardMAX.com'.

Admin Menu Items

When you are logged in as an administrator, the system provides five modes of operation: Administration, Members, eGreeting Cards, Advance Options, Email Tool.

Administration => System Configuration => General

Value	Description
Webmaster email	All emails sent by the gallery will be sent using this email address. This must be a valid email address.
Your site title	Enter the name of your gallery in this text field. The name you enter will appear as the title that is displayed in the web browser's title bar and is also displayed in many of the different theme templates.
Currency symbol Please use UTF-8 encoding	used as a shorthand for a currency's name
Search Engine Friendly URL .htaccess is supported. You can use SEO URL now	You should also be concerned with user friendliness. URLs with long query strings are not only unfriendly to search engines, but also to users. A user will have a far easier time remembering a URL with real words in it rather than a URL with cryptic numeric data & variable names. Search engine friendly URLs also easily allow you to hide the type of server side programming you're using by removing the tell extension (such as .php) from your URLs. This means you will be able to change your backend software at a later date without changing your URLs, and it may even provide a security bonus.
Twitter consumer key	Head over to Twitter and set up an application. The last two fields are important. The callback URL will need to redirect to your web server at a location where you will be uploading some files. Assuming you're going to upload into your web root, the callback URL would be something like http://yourdomain.com/confirm.php . You'll also need to make sure you select "Read & Write" access.
Twitter consumer secret	
Facebook API key	The API key is the unique code that was assigned to your application when you created it
Facebook secret	
Facebook card category	
Set meta tag Keyword for home page	The meta keywords tag allows you to provide additional text for crawler-based search engines to index along with your body copy.
Set meta tag Description for home page	The meta description tag allows you to influence the description of your page in the crawlers that support the tag.
Turn Horizontal banner	Yes: horizontal banner will be shown at front end. No: horizontal banner will be hidden at front end.
Turn Vertical banner	Yes: vertical banner will be shown at front end. No: vertical banner will be hidden at front end.

<p>Disable right click (use JavaScript) to prevent user copy your images?</p>	<p>Yes: Disable right click on front end to prevent users from stealing website's images. No: accessing the right click menu, users can be used to copy and save the images.</p>
<p>Enable Black list feature. User can subscribe their email to this list and never receive any email from your site again.</p>	<p>To secure your site against spammers enable the feature. Yes: enable the feature. No: disable the feature. Today, most people on the internet have dynamic IP addresses that are assigned to them when connecting to the internet by their Internet Service Provider. These IP addresses change each time the user connects to the internet, but during an internet session these IP addresses are "visible" at the web-sites that thee user is surfing. Within the range of all IP addresses (0.0.0.0 to 255.255.255.255), certain ranges are reserved for special purposes (mostly for the use on private networks). The banning feature will not accept IP addresses banning of addresses that belong to these private ranges (e.g. 192.168.0.1). This is necessary to prevent unexperienced, as well as experienced, eCardMax admin from banning IP addresses within their own LAN. If you're actually running eCardMax on your LAN/WAN that uses private IP addresses (e.g. on a company's intranet) and you want the authority to be able to ban users, switch this option to "Yes". If you're running eCardMax on a web server located in the internet (e.g. you're web hosted), you should keep this option set to "No". If you don't use banning at all, you can safely ignore this setting completely.</p>
<p>Use easy edit template feature.</p>	<p>Yes: Select yes, program will print on the screen this image . Click on this image will tell you which html file name you need to edit (helpful while you design your site), select No to turn this feature off or when you go live your site No: Select no, program won't print that image.</p>
<p>Date format</p>	<p>This is the format of the outputted date string. See the formatting options below: DD MM YYYY MM DD YYYY YYYY DD MM YYYY MM DD</p>
<p>Set server Time Zone</p>	<p>Specify the time zone difference between your local time and</p>

	the time zone your web server is in. This value will be used to adjust time stamps in eCards and other places.
Number of thumbnail images per row	This sets the maximum images of the thumbnails that are to be displayed for each row. Default value is 3 this means that each row will show 3 thumbnails.
Number of row per page	This sets the maximum row of the thumbnails that are to be displayed for each page. Default value is 3.
HotEditor Key code	Enter keycode to remove link back to HotEditor site
eCardMAX Key code	Enter keycode to remove link back to eCardMAX site.
ePhotoHunt Game Key code	Enter keycode to remove link back to ePhotoHunt site.
eCardMAX Java Applet Key code	Enter keycode to remove link back to eCardMAX site.
DSEffect Key code (visit their website to buy Key code)	
Anfy Key code (visit their website to buy Key code)	

⇒ Change currency symbol: you can change currency symbol of ecards.

Gold Version Settings

To turn Payment feature ON you need to login to eCardMAX admin area, click the link System Configuration - scroll down to bottom page - go to section Gold Version Settings, then answer Yes for question "Enable 2CheckOut test mode?"

[Administration](#) => [System Configuration](#) => [Gold Version Settings](#)

The screenshot shows the 'System Configuration' page with a navigation bar containing tabs for 'General', 'Tell Friend & Birthday Alert', 'eCard Settings', 'Invitation Card Settings', 'Styles', 'Watermark Settings', 'Member Album', and 'Gold Version Settings'. The 'Gold Version Settings' tab is active. Below the tabs, there are four configuration fields:

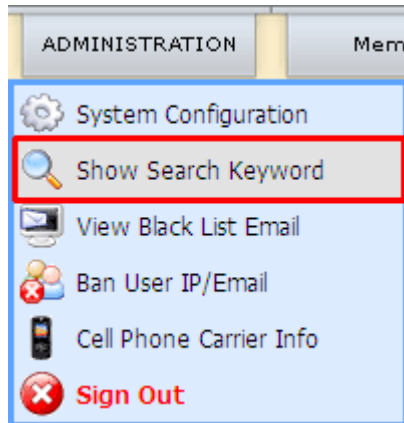

- 'Enable 2CheckOut test mode ? (Select YES to test 2CO Payment - use credit card number 123456789112345)' with a dropdown menu set to 'Yes'.
- 'Enter your 2CheckOut secret word' with a text input field containing 'ailoveai'.
- 'Enter your 2CheckOut Sid number (seller ID number)' with a text input field containing '28715'.
- 'Your primary PayPal email address' with a text input field containing 'webmaster@ecardmax.com'.

At the bottom of the page, there is a copyright notice: 'Copyright (C) 10.0 www.eCardMAX.com'.

Show Search Keyword

As your gallery grows, there will be an increasing number of files in it and subsequently a lot of keywords to manage. To help you manage your keywords, there is a keyword manager available - just click on the corresponding link in the admin menu.

[Administration](#) => [Show Search Keyword](#)

Note: that the keyword manager will only show up in the admin menu, you cannot edit or delete any keyword.

View Black List Email

To help you manage your list email that you don't want to send mail when someone use it on your website, there is a black list email manager available - just click on the corresponding link in the admin menu.

[Administration](#) => [View Black List Email](#)

All collectors in this black list are added by administrator of the site. In here, administrator can delete or set status for any users.

- All emails found in this list which were marked Active will be blocked. System will not send any email message or ecard to them.
- Emails which were marked Pending will not be blocked.
- If users don't want to receive any email from your site, they can add their email to this list (via user interface). Admin can add/remove their email here.

 **View Black List Email (Total 6)**

[+ Click here to add new email to black list](#)

Notes:

- All emails found in this list which were marked **Active** will be blocked. System will not send any email message or ecard to them.
- Emails which were marked **Pending** will not be blocked.
- If users don't want to receive any email from your site, they can add their email to this list (via user interface). Admin can add/remove their email here.

Icon	Email	More Info	Status	Remove	
	capulet_som@yahoo.com	Active Server will not send anything to this email	Active		<input type="checkbox"/>
	khoi@cgizk.com	Active Server will not send anything to this email	Active		<input type="checkbox"/>
	tilysoftr@vnn.vn	Active Server will not send anything to this email	Active		<input type="checkbox"/>
	alk1214@yahoo.com	Pending User still receive ecard and other email	Pending		<input type="checkbox"/>
	riblankenship@hotmail.com	Pending User still receive ecard and other email	Pending		<input type="checkbox"/>

Display row per page Delete Selected 

Administrator can add new email to black list by clicking “Click here to add new email to black list” link at the top of the page and filling in the form that will come up.

 **View Black List Email (Total 6)**

[+ Click here to add new email to black list](#)

Add new email to black list 

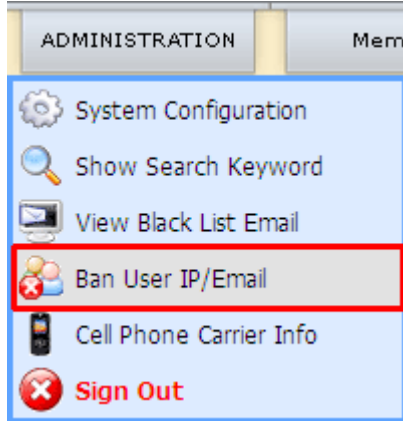

Enter email address line by line

Ban User IP/Email

Ban users based on hostname or IP address. Make sure not to ban yourself! Use this feature with extreme caution, as most users today do not have static IP addresses, this feature should only be employed if you really know what you're doing.

Click on the corresponding link in the admin menu.

[Administration => View Black List Email](#)

The screenshot shows the 'Ban IP/Email (Total 1)' management interface. At the top, there is a link: '+ Click here to add new IP/Email to ban list'. Below this, there are 'Tips:'

- **Ban IP Address:** will prevent a user reaching any part of your ecard site.
- **Ban Email Address:** will prevent a user sign up new account or send ecard by using that email.

The main part of the interface is a table with the following data:

Icon	IP/Email	Length of ban (MM/DD/YYYY)	UnBan
	255.20.20.2 Reason: <u>Spam</u>	10/29/2027	

At the bottom, there is a search bar with 'Search IP/Email' and a 'Search' button. There is also a 'Display row per page' dropdown set to '15' and an 'Unban Selected' button with an up arrow icon.

You can add new IP/Email to ban list by clicking “Click here to add new IP/Email to ban list” and fill in the form that will come up.

 **Ban IP/Email (Total 1)**

[Click here to add new IP/Email to ban list](#)

Add new IP/Email to ban list

Enter an IP or Email address (Line by line)
Example:
111.222.*.*
myname@email.com
117.6.44.73

255.20.20.2

Length of ban: Forever

Reason for ban: Spam

Tips:

- **Ban IP Address:** will prevent a user reaching any part of your ecard site.
- **Ban Email Address:** will prevent a user sign up new account or send ecard by using that email.

Show Member Accounts

The user control panel can be found when clicking “Show Member Accounts” from the members menu. It is the place where you create and manage your users.

Members => Show Member Accounts

The screenshot shows the 'Show Member Accounts' page in the eCardMAX application. The page has a yellow background and a navigation bar at the top with the eCardMAX logo and links for Admin Index, Homepage, Holiday/Event, and Feedback. Below the navigation bar are buttons for ADMINISTRATION, Members, eGreeting Cards, Advance Options, and EMAIL TOOL, along with a 'Select languages' button. The main heading is 'Show Member Accounts (total 8)' with a 'Set Member Group for all users' button. A search bar is present with the text 'Search member account'. A tip states: 'Tip: Click account user name id to view account detail.' Below this, it says 'Total members: 8'. A table lists 8 members with columns for Account Information, Edit Member Group, Account Status, and Delete. At the bottom, there is a 'Display row per page' dropdown set to 15 and a 'Suspend/Delete Selected' button with an up arrow icon. The footer contains the copyright notice: 'Copyright (C) 10.0 www.eCardMAX.com'.

Time From - To	View all Accounts created From: To: <input type="button" value="Go"/>

In here, you can search users by many conditions. It is flexible.

Page controls

- You can change number of users show per page by enter a number in display row per page box.
- If you have more than 15 users, a page tab will appear at the bottom right of the screen, allowing you to go to subsequent pages of your member list
- Clicking on a user's name will display the profile page of the individual user (read only)

The screenshot shows the eCardMAX Admin interface. At the top, there are navigation tabs: Admin Index, Homepage, Holiday/Event, and Feedback. Below these are menu items: ADMINISTRATION, Members, eGreeting Cards, Advance Options, and EMAIL TOOL. A 'Select languages' button is also present. The main content area is titled 'Show Members' and displays a list of members. A popup window titled 'Account Information Detail' is open for the user 'teewanna'. The popup shows the following details:

Account id number	5
User name id	teewanna
User password	trythis
Email	tri@ecardmax.com
Total cards sent	1
Number of time login	16
Date sign up	30 Mar 2010 - 11:17:48 PM
Last login	25 May 2010 - 9:10:49 AM
First last name	Tri Vo
Phone number	
Address	
City	
State	NY
Zipcode	
Country	United States
Birthday (MM/DD)	Apr 18
Gender	Male
Marital Status	Single

Below the popup, there is a table with columns for 'Status' and 'Delete'. The 'Delete' column contains checkboxes and red 'X' icons. At the bottom of the popup, there is a 'Suspend/Delete Selected' button with an upward arrow icon. The footer of the page reads 'Copyright (C) 10.0 www.eCardMAX.com'.

- The "Member Group" column displays the primary member group the user is in, you can change member group for any user.
- The "Account Status" column displays status of user.
- You can change a number of settings for several users at once by clicking the checkbox in back of the user row (use the checkbox at the very top or bottom of the page to select/unselect all users on the page) and then choosing an action to perform from the dropdown box "Suspend/Delete Selected" at the bottom left of the page. The actions you can choose from are "Suspend" or "Delete".

List Inactive Accounts

An account with an "Inactive" status simply means that the person registered, but did not login in 6 month

You can search member account by clicking “Search member account” and fill in the form that will come up.

View Member Album

eCardMax stores files inside of albums, so you'll need at least one album for your pictures/files to be placed in. Albums can be stored in categories (but they don't HAVE to be in a category, they can just as well go into the eCardMax "root").

When you click on "albums" in the members menu, you will see the Album Manager.

Members => View Member Album

There is a menu displayed next to album:

- Show member photos: allows you to view or delete photos.
- Show member audio files: allows you to view or delete audio files.
- Show member poems: allows you to view or delete poems.

 **Show Member Photos (total: 27)**

Manage eCard – Add/Remove Categories and eCards

In here, you can manage all categories and ecards. It configures all categories, ecards shown on the front-end. Select eGreeting Cards menu then Manage eCard like image shown below.

eGreeting Cards => Manage eCard

Manage eCard (70 categories - 627 ecards)

Category Navigation: [Main Root](#) >>

[Show help for this page](#) [Visit this category \(User interface\)](#)

Category Name	#Sub category	#eCards	Set Birthday category	Active/Inactive	Delete	Sort Order
Birthday	6	86		<input checked="" type="checkbox"/>		1 <input type="text"/>
Event Occasions	8	79		<input checked="" type="checkbox"/>		2 <input type="text"/>
Flower	3	52		<input checked="" type="checkbox"/>		3 <input type="text"/>
Holiday	30	137		<input checked="" type="checkbox"/>		4 <input type="text"/>
Love	4	72		<input checked="" type="checkbox"/>		5 <input type="text"/>
Sorry	3	53		<input checked="" type="checkbox"/>		6 <input type="text"/>
Stay In Touch	3	61		<input checked="" type="checkbox"/>		7 <input type="text"/>
Thank You	5	87		<input checked="" type="checkbox"/>		8 <input type="text"/>

Select command below:

Create new Main category: [Main Root](#) >> ???

- Check/Uncheck checkbox to activate/deactivate category.
- Click birthday cake to set birthday category (eCardMAX will randomly pick an ecard in this category and auto send it to registered users on their birthday).
- Icon means this category has subcategories.
- Icon means this category has no subcategories.
- Click icon or to open that category.

- Click category name (underline words) to rename category.

Create New Category

To add new category, simply click on the button "Create new Main category" at the top of the page and fill in the form that will come up.

 Create new Main category: <u>Main Root</u> >> ???	
Add new Main category 	
Category name	<input type="text"/>
Folder name (to store ecard image files) No special characters please.	<input type="text"/> Path: http://www.ecardmax.com/gold_2007/resource/picture/???
Set HTML meta tag Keyword (max=255 characters)	<input type="text" value="keyword1,keyword2,keyword3"/> <meta name="keywords" content="key1,key2,key3" />
Set HTML meta tag Description (max=255 characters)	<input type="text" value="Your text here"/> <meta name="description" content="your text here" />
Set HTML tag Title (max=255 characters)	<input type="text" value="Your text here"/> <title>Your text here</title>
Active this category now	<input checked="" type="checkbox"/>
<input type="button" value="Submit"/>	

Add/Remove eCards

To add or remove ecards, click on eGreeting Cards menu, Manage eCard, you will see screen like below.

 **Manage eCard (70 categories - 627 ecards)**

Category Navigation: [Main Root](#) >>

[Show help for this page](#) [Visit this category \(User interface\)](#)

Category Name	#Sub category	#eCards	Set Birthday category	Active/Inactive	Delete	Sort Order
 Birthday	6	86		<input checked="" type="checkbox"/>		1 
 Event Occasions	8	79		<input checked="" type="checkbox"/>		2 
 Flower	3	52		<input checked="" type="checkbox"/>		3 
 Holiday	30	137		<input checked="" type="checkbox"/>		4 
 Love	4	72		<input checked="" type="checkbox"/>		5 
 Sorry	3	53		<input checked="" type="checkbox"/>		6 
 Stay In Touch	3	61		<input checked="" type="checkbox"/>		7 
 Thank You	5	87		<input checked="" type="checkbox"/>		8 

Select command below:

 Create new Main category: [Main Root](#) >> ???

Click on icon  to see all subcategories then click icon  to manage ecards for that particular subcategory. In case you do not have subcategories then you may add ecards at the main category. The screen below will appear and list all subcategories.

 **Manage eCard (91 categories - 891 ecards)**

Category Navigation: [Main Root](#) >> [Birthday](#)

Click “Click here to add/remove ecard in this category[] ” to display the screen below.

 **Add/Remove eCards (Total 13) - Category name General**

[Select who can/can't send ALL ecards in this category](#) [Set price for all cards in this category](#)

 [Click here to add new eCards](#)

Sort	Thumbnail	<input checked="" type="checkbox"/> Embed Msg	<input type="checkbox"/> Embed	<input type="checkbox"/> Select who can send ecard										Delete	<input type="checkbox"/>	
1	 Added on date: Mar 17 2006	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> Guest											<input type="checkbox"/>
2		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> Guest											<input type="checkbox"/>

Pay Per Card: \$0.00

The screen above displays detail of each ecard. In here, you may add your own ecard or remove existing ecard.

To add new ecard, click and you will see the screen below:

How to add new eCards by using FTP program?

1. Use FTP login to your server, go inside folder `/home/ecardmax/public_html/ecardmaxgold/resource/picture/BirthdayGeneral`
2. Start uploading thumbnail + full size image files to folder **BirthdayGeneral**. You must name your thumbnail and full size image files like this:
 thumbnail : **xxx_thumb.gif** (or .jpg, .png) - example: **1_thumb.gif**
 full size: **xxx.gif** (or .jpg, .png, .swf) - example: **1.swf** (flash ecard)

Please Note: If you don't have your thumbnail images ready then just upload full size images (example: 123.jpg), eCardMAX will auto create Thumbnails for you (it will create 123_thumb.jpg). (eCardMAX **will not** create thumbnail if full size card is a flash movie .swf). To set thumbnail width and height, use **System Configuration**
3. After you're done uploading your files, [CLICK HERE](#) to insert your new ecards to database.

Add new eCards using web browser

Note: eCardMAX will auto create thumbnails for you if you don't input thumbnail files.

Thumbnail 1	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx_thumb.gif or .jpg or .png)
Fullsize 1	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx.gif or .jpg or .png or .swf)
Thumbnail 2	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx_thumb.gif or .jpg or .png)
Fullsize 2	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx.gif or .jpg or .png or .swf)
Thumbnail 3	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx_thumb.gif or .jpg or .png)
Fullsize 3	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx.gif or .jpg or .png or .swf)
Thumbnail 4	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx_thumb.gif or .jpg or .png)
Fullsize 4	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx.gif or .jpg or .png or .swf)
Thumbnail 5	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx_thumb.gif or .jpg or .png)
Fullsize 5	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx.gif or .jpg or .png or .swf)
Thumbnail 6	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx_thumb.gif or .jpg or .png)
Fullsize 6	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx.gif or .jpg or .png or .swf)
Thumbnail 7	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx_thumb.gif or .jpg or .png)
Fullsize 7	<input type="text"/>	<input type="button" value="Browse"/>	(allow xxx.gif or .jpg or .png or .swf)
<input type="button" value="Submit"/>			

You may add ecard(s) via admin by click the Browse button and choose thumbnail image and full-size image or you may leave the thumbnail image blank and eCardMax will auto generate the thumbnail image for you base on the thumbnail image size setting under System Configuration.

If you have many ecards to upload at once, you may do so via FTP by following the instruction step 1-3 at the top of the above screen.

After ecard is added you may configure all options for it. By moving your mouse over to each icon in the column header below, you will see description for each item.

Sort	Thumbnail	<input checked="" type="checkbox"/>	Embed Msg		Select who can send ecard										Delete	<input type="checkbox"/>
1	 Added on date: Mar 17 2006	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> Guest <input checked="" type="checkbox"/> Free Basic membership <input type="checkbox"/> Gold Membership - Re-bill every year Pay Per Card: \$0.00											<input type="checkbox"/>

Sort – Set the order of ecard display on the front-end

Thumbnail – Shows the thumbnail image of ecard and date added

- Feature ecard, when this is checked, it will show this ecard in the featured ecard section on the front-end

Embed Msg – This is for Flash ecard, if you want to allow user to embed the message when personalize the card to display in your flash ecard, check this checkbox. Additional programming will require for each flash ecard that allows embed message, will require knowledge of flash programming.

Select who can send ecard – This displays different membership groups, if you allow each group to send ecard then check the appropriate box. For Guest and Free Basic Membership groups, if you want either of this group to send this card you will also need to turn on the feature *Allow users in this group to send ecard* in the Members, Set Member Groups section.

- Click on this icon to enter caption for the ecard which will be displayed under ecard thumbnail on front-end.

- Click on this icon to enter keywords separated by comma, these keywords will be utilized by search engines.

- Click on this icon to enter detail description for this ecard.

- Click this icon to set the default poem for this ecard.

- Click this icon to set default java effect for this ecard. This option will only work for image type ecard only; it will not work for flash ecard. For animated gif ecard, if you use this option then you will lose the gif animation.

- Click this icon to set default skin for this ecard.

- Click this icon to set default stamp for this ecard.

- Click this icon to set default music for this ecard.

- Click this icon to preview this ecard.

- Click this icon to delete this ecard.

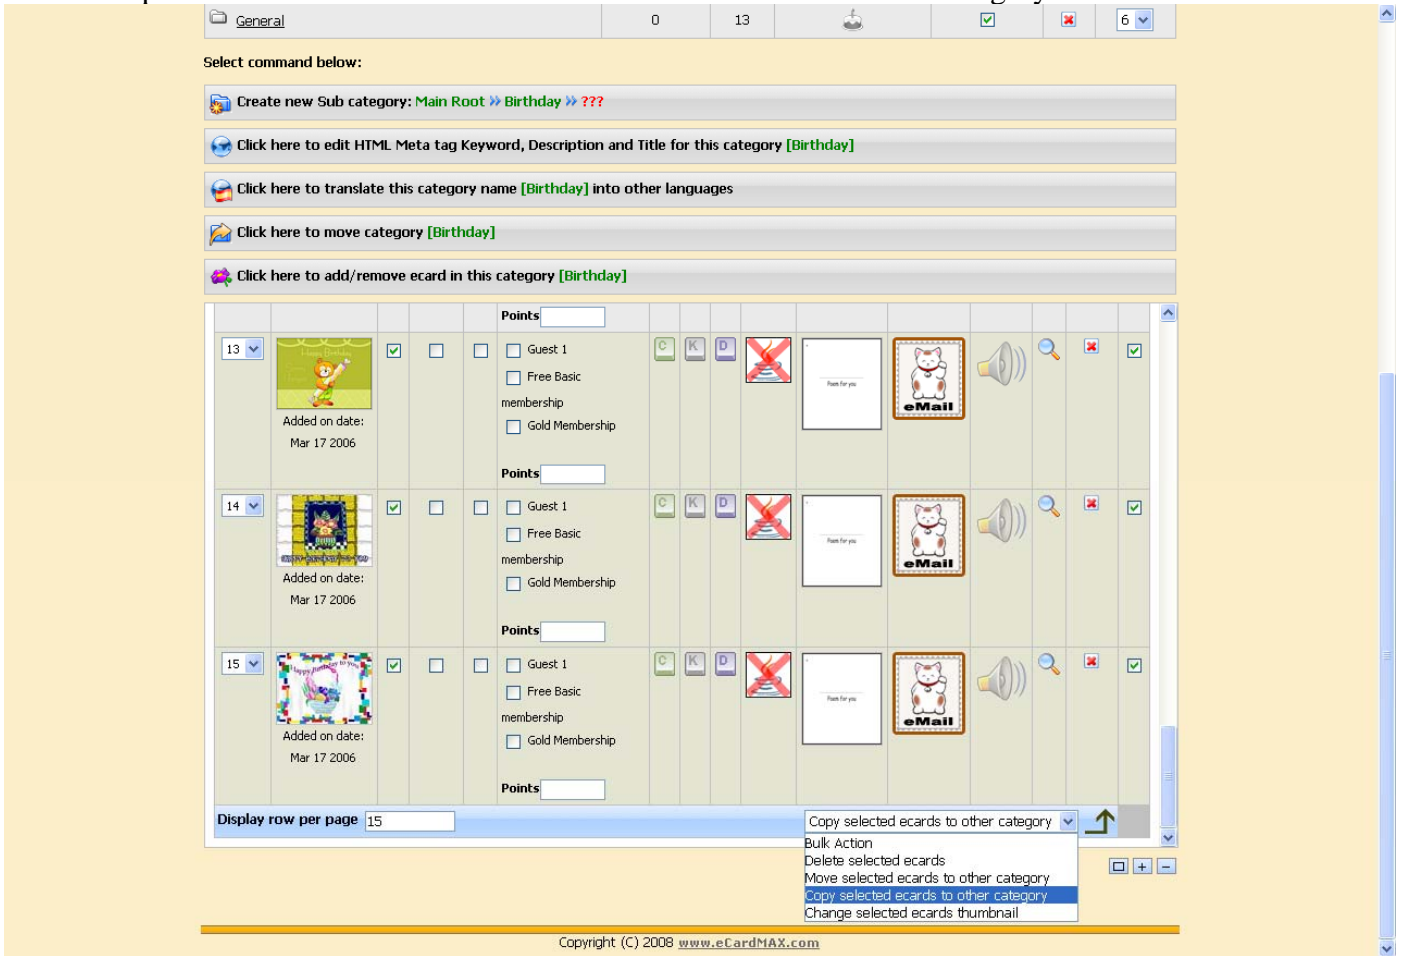

- Click this icon to apply action to multiple ecards. The action list is available at the bottom of add/remove ecard screen as shown below.

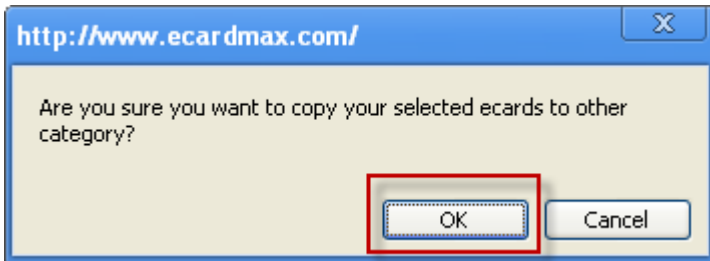

Copy ecard(s) from one category to another category

- Step 1: Click on this link “Click here to add/remove ecard in this category”

- Step 2: click “OK” button of popup confirmation.

- Step 3: select one category name that you want to copy these selected ecards

Copy selected ecards to category name...(select category below)

Create Message

Email Tool => Create Message

eCardMAX will send email newsletter with both HTML & Text format. If user's mail reader can't read HTML email, then they will see Text version.

When you create new newsletter message, please include both HTML & Text format.

When you add new message, you can use Frontpage, Dreamweaver to create HTML email, then copy HTML source code and paste to textarea box.

A screenshot of a web application interface titled "Create New/Edit/Delete Newsletter". At the top, there is a button with a plus sign and the text "Click here to create newsletter". Below this is a "Tips:" section with three bullet points: "eCardMAX will send email newsletter with both HTML & Text format. If user's mail reader can't read HTML email, then they will see Text version.", "When you create new newsletter message, please include both HTML & Text format.", and "When you add new message, you can use Frontpage, Dreamweaver to create HTML email, then copy HTML source code and paste to textarea box." Below the tips is a table with columns for "Icon", "Newsletter Detail", "Preview", and "Delete". The table contains eight rows of newsletter entries, each with a blue envelope icon, a subject line, a "Click here" link to edit the body, a preview icon, and a delete icon. At the bottom of the interface, there is a "Display row per page" dropdown set to "15", a "Search message" input field with a "Search" button, and a "Delete Selected" button with an upward arrow icon.

To add new newsletter, simply click on the button "Click here to create new newsletter" at the top of the page and fill in the form that will come up.

Dear eCardMAX User,

We are pleased to announce the availability of the eCardMAX **2006-0720** package. With this release we used Ajax to create some great features.

Please come to our site to check out the new features list <http://www.ecardmax.com/index.php?step=eCardmax>, in here you can enter your 2Checkout order number to download the zip file.

Please feel free to test the demo at http://www.ecardmax.com/standard_2006

Best Regards,
[eCardMax.com](http://www.ecardmax.com)

PS: If you are using add on Invitation program, you need to update it too (the zip file is available to download)

- Send a test email to **webmaster@ecardmax.com**
- Send email to all users on the list now

Integration with 2Checkout and Paypal

How to integrate eCardMAX to 2CheckOut payment processor

If you don't have 2CheckOut.com account, then click here to get one (No Waiting Weeks, Start Selling in just a Few Minutes - that's true).

First, you need to enable payment feature: Log in to eCardMAX Admin area, click the link System Configuration - go to section Gold version only, then answer Yes for question "Would you like to enable 2CheckOut and PayPal payment?"

You have to rename the script 2checkout.php. For example: rename it to Abnd2543Ps.php (it likes the password - hard to guess and you don't have to remember it). Please do not modify the php code inside unless you know what you are doing.

Next, click the link below to login to your 2Checkout.com member area

<https://www.2checkout.com/2co/login>

At the main page select the link Set Up Product

Account Homepage

Welcome to your sellers configuration area!

First time here, be sure to look at the following.

No matter what you want to sell, start by setting up your...

1. [Bank Account & Payment Details.](#)
2. [Additional Site Information.](#)
3. [Vendor Contact Information](#)
4. [Set Up Products.](#)
5. [Shipping Methods](#) or [e-good allowable countries.](#)
6. [Business Contact Information.](#)
7. [Setting Up Your Site.](#)

Always be sure to keep your information up to date.

Next page - click the link on your right hand side New Recurring Product.

Then fill out the form - See image below

Name (no special characters): ?
Name as it will appear on receipt.

Your Product ID: ?

Short Description: ?
Displays at checkout.

Long Description: ?
Displays on product page.

Price: (\$) ?

Start Up Fee: ?

Weight: (lbs) ?

Handling: ?

Tangible: ? Yes No

Pending URL:

Approved URL:

Recurrence: ? Bills every

Duration: ? Continue Billing for

Product Complete ? Yes No (Approves/Disapproves product for shopping center inclusion)

Enter the URL of script Abnd2543Ps.php in field Approved URL.

Click Create Recurring Product button when you done, then go back to Set Up Products page you will see this

Products for #28715

[Back to Vendor Information Page](#)

Next page, select Yes for Direct Return, then enter the URL of script Abnd2543Ps.php

Direct Return

If set to Yes buyers will be immediately directed to your URLs below once they click the Complete Order button. If set to No the buyers will have to click a button to return to your URLs below.

Note: You MUST get your passbacks working with direct return turned OFF before we will help you with a problem with direct return turned ON.

Approved, pending and affiliate area

Approved URL

Input a url for your customers to be sent to on a successful purchase.

Example: https://www.yoursite.com/yourscript.php

Pending URL

Input a url for your customers to be sent to when a purchase cannot be verified immediately.

Example: https://www.yoursite.com/yourscript.php

Scroll down to set your Secret Word, then click Save Changes button

Now, login to eCardMAX admin area, scroll down to bottom page, at section Gold version only enter your 2CheckOut secret word, your 2CheckOut sid number (seller ID number) and your 2CheckOut product_id number.

To test 2CheckOut payment script, answer Yes for question Would you like to turn ON 2CHECKOUT TEST MODE?

Go to your eCardMAX homepage, click button Join Now to test 2CheckOut payment script. Use credit card number 123456789112345 to make the payment.

When you go live your site you MUST turn OFF 2CheckOut Test Mode (say No for question Would you like to turn ON 2CHECKOUT TEST MODE?)

How to integrate eCardMAX to PayPal payment processor

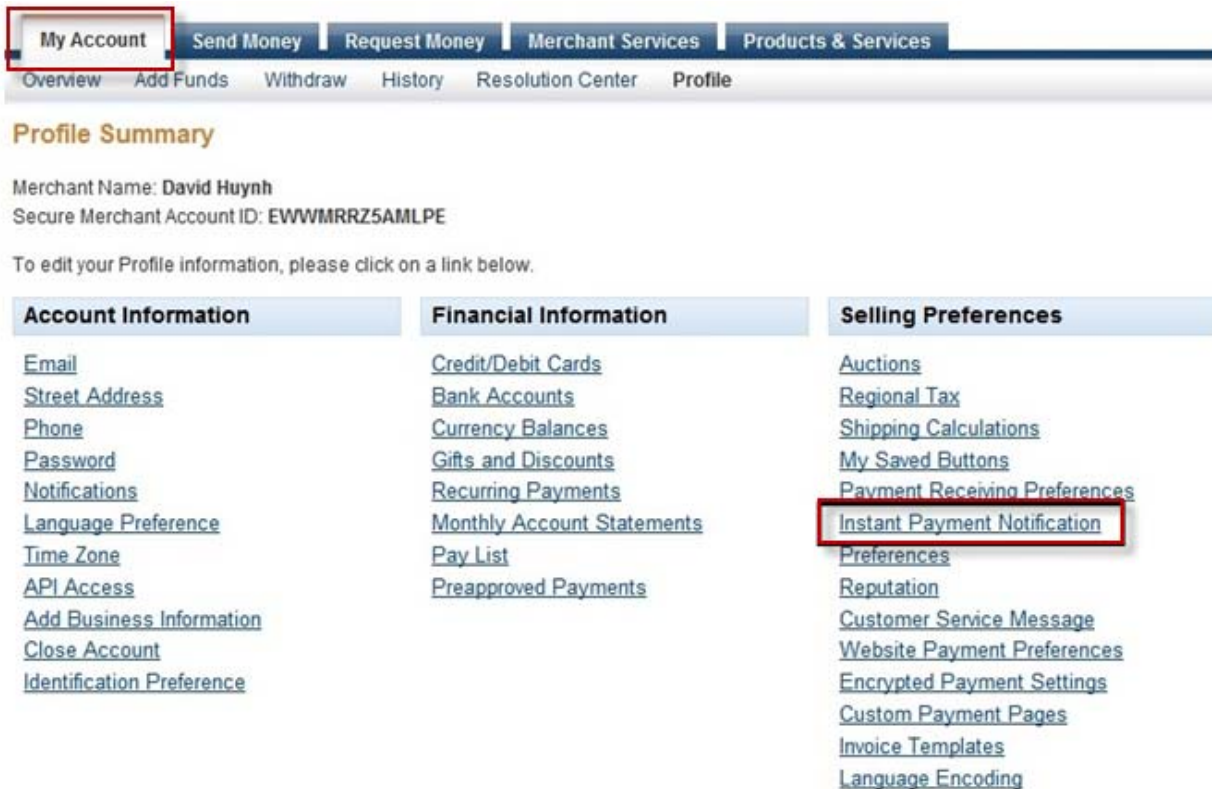

If you don't have PayPal.com account then click here to get one. Please note: You have to become a PayPal verified member in order to sell product on your site.

First, you need to enable payment feature: Log in to eCardMAX Admin area, click the link System Configuration - go to section Gold version only, then answer Yes for question "Would you like to enable 2Checkout and PayPal payment?"

Then, enter Your primary PayPal email address

Please note: If you have 2 or more Paypal email accounts then you have to use your Primary PayPal email account. To know which email account is your primary account then do this:

- Login to your PayPal member area
- Click "My Account" tab then click the link Instant Payment Notification (Selling Preferences)

Next page you have to click "Edit IPN Settings" button

- My Account
- Send Money
- Request Money
- Merchant Services
- Products & Services

Instant Payment Notification (IPN)

[Back to Profile Summary](#)

Instant Payment Notification (IPN) is a PayPal feature that sends messages about payments (and other transactional events) directly from PayPal to your website(s)' back-end systems. You can view up to 28 days worth of messages. You can also

- Resend messages not received by your website(s)' back-end systems
- Temporarily stop receiving messages (useful when performing maintenance on your back-end systems)

Messages are generated but stored at PayPal until you start receiving them again.

Use the IPN feature in these situations:

- Your service provider, cart provider or website developer has asked you to
- You have back-end systems that require IPN messages to automate business processes, such as creating shipping notifications and inputs to accounting applications.

[Learn more](#) about the IPN feature.

By clicking "Edit IPN Settings," you will be taken to the configuration page, where you determine where to send IPN messages and decide to start or stop receiving the messages.

And then you have to check Receive IPN messages (Enabled) and enter the URL of your paypal.php script - click Save button when you done.

- My Account
- Send Money
- Request Money
- Merchant Services
- Products & Services

Edit Instant Payment Notification (IPN) settings

[Back to Profile Summary](#)

PayPal sends IPN messages to the URL that you specify below.

To start receiving IPN messages, enter the notification URL and select **Receive IPN messages** below. To temporarily stop receiving IPN messages, select **Do not receive IPN messages** below. PayPal continues to generate and store IPN messages until you select **Receive IPN messages** again (or turn off IPN).

Notification URL

In eCardMAX Admin area, inside "Members" tab, click "Click here to create new Group" to expand "Create new member group" form. (See image below)

The screenshot displays the eCardMAX administrative interface. At the top, the logo "eCardMAX" is shown in orange. Below it, a navigation bar contains four blue tabs: "Admin Index", "Homepage", "Holiday/Event", and "Feedback". A horizontal line separates this from a menu area with several grey buttons: "ADMINISTRATION", "Members", "eGreeting Cards", "Advance Options", and "EMAIL TOOL". The "Members" button is highlighted with a red rectangular border. Below the "eGreeting Cards" button is a smaller button labeled "Select languages" with a small flag icon. Below the menu area, there is a section titled "View/Edit member groups" with a colorful icon of three people. At the bottom of this section, a button with a green plus sign and the text "Click here to create new Group" is highlighted with a red rectangular border.

Integration with Facebook

This guide shows you a quick way to create Facebook application for you ecard website.

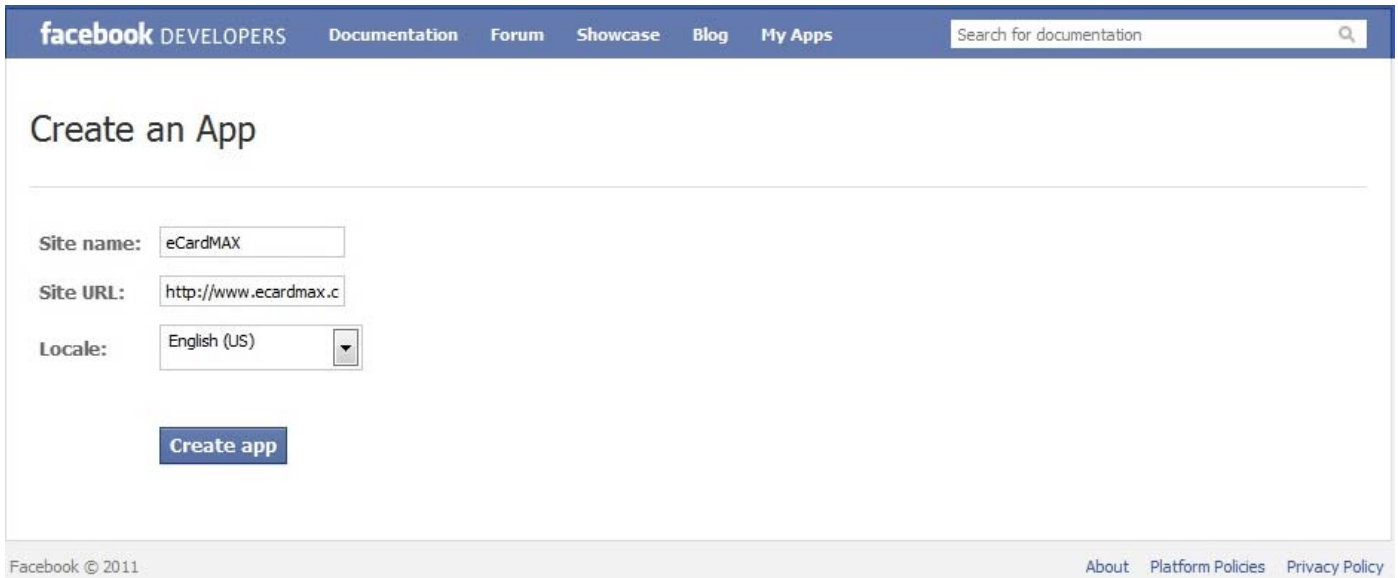

1) Open a web browser and go to: <http://developers.facebook.com>, you will see a screen below.

Click Add Facebook to my site.

2) Read and search for "register your website" which will take you to this page:

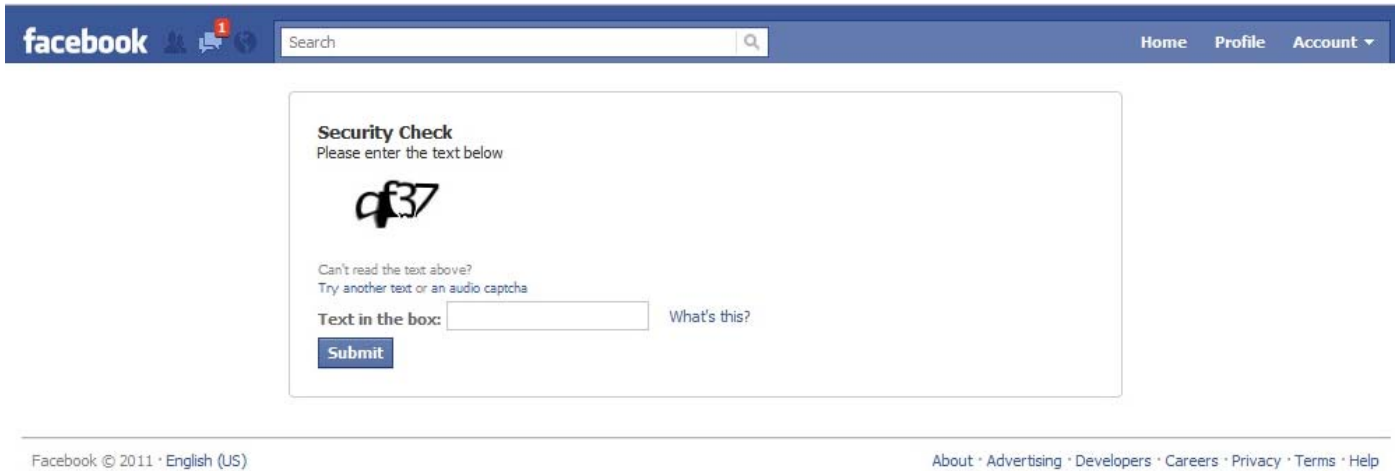

<http://developers.facebook.com/setup/>

Enter Site name (Name of your Facebook application)

Enter Site URL (your eCardMax URL)

Click "Create app" to continue and you will see the screen below:

3) Type in the text for security check then click Submit which will take you to the screen below:

Create an App

Settings

eCardMAX is now registered with Facebook. You can edit your app settings at any time in your Developer Dashboard.

App Name: eCardMAX
App URL: http://www.ecardmax.com/ecardmaxdemo/

Integration with Twitter

This guide shows you a quick way to create Facebook application for you ecard website.

1) Open a web browser and go to: <https://dev.twitter.com>, you will see a screen below.

2) Click "Register an app" and the screen below will show:

Application Name:

Description:

Application Website:
Where's your application's home page, where users can go to download or use it?

Organization:

Application Type: Client Browser
Does your application run in a Web Browser or a Desktop Client?
Browser uses a Callback URL to return to your App after successful authentication.
Client prompts your user to return to your application after approving access.

Callback URL:
Where should we return to after successfully authenticating?
You can override this at any time by sending an `oauth_callback` while obtaining a `request_token`.
You can authorize additional domains if your app has more than one.

Default Access type: Read & Write Read-only
What type of access does your application need? Note: @Anywhere applications require read & write access.

Application Icon: 
Maximum size of 700k. JPG, GIF, PNG.

August 31, 2010 Basic Auth has been deprecated. All applications must now use OAuth. Read more x

Note:

- + Application Website: home page of your eCardMax (e.g: <http://www.ecardmax.com/ecardmaxgold/>)
- + Application Type: Browser
- + Callback URL: http://your_ecardmax/oauth/confirm.php (e.g: <http://www.ecardmax.com/ecardmaxgold/oauth/confirm.php>)
- + Default Access type: Read & Write

Click "Register Application" to complete which will take you to a screen below:

The screenshot shows the eCardMax application settings page for Twitter integration. At the top left, there is a Twitter logo and the text: "eCardMAX is loaded with features. With eCardMAX, registered users can send voice messages with e-cards. Created by ECardMAX.com". Below this, there is a section for "@Anywhere Settings" with the text: "@Anywhere is easy to deploy. You only need an API key and registered callback URL." The settings are organized into several sections:

- API key:** v2XkvRudIKDLENF1MkKAg
- Registered Callback URL:** http://www.ecardmax.com/ecardmaxgold/oauth/confirm.php
The @Anywhere callback URL's domain & subdomain must match the location of @Anywhere integrations on your site. You can authorize additional domains if you need to integrate with more than one site.
- OAuth 1.0a Settings:** OAuth 1.0a integrations require more work.
- Consumer key:** v2XkvRudIKDLENF1MkKAg
- Consumer secret:** SgdLnBohrlqSqwX6kfF5TEhQN8cIRpOyAaXDwa9ow
- Request token URL:** https://api.twitter.com/oauth/request_token

At the bottom left, there is a blue banner with the text: "August 31, 2010 Basic Auth has been deprecated. All applications must now use OAuth. Read more » x". On the right side of the page, there is a vertical sidebar with several buttons: "Edit Application Settings", "Manage Domains", "Reset Consumer Key/Secret", "My Access Token", and "View your applications".

3. Review all your information and copy *Consumer key* and *Consumer secret* into your eCardMax Admin, System Configuration.

Please note that the recipients must follow your twitter to be able to receive card. Please check this URL format to see if recipients have followed you: http://twitter.com/recipients_twitter/following
